

REDUCE THE RISK ARE YOUR EMPLOYEES READY?

Robbery Training Seminars

The Learning Institute is pleased to bring armed robbery training to credit unions. In conjunction with the Canadian Armed Robbery Training Associates Inc. (CARTA), this workshop will cover all components of a 'robbery' scenario and focus entirely on employee and member safety.

Key Employer Benefits

- *Helps management minimize Bill C-45 Legislation (Criminal Liability of Organizations) issues for all decision makers' that could arise from a robbery incident where an employee is seriously injured or killed.*
- *Helps management comply with requirements under the Canada Labour Code Regulation 19 (Hazard Prevention Program) which covers all federally regulated industries.*

Key Employee Benefits

- *Minimizes Risk of Injury During a Robbery*
This training provides the employee with the knowledge, procedures and confidence to respond to a robbery safely and effectively.
- *Training in Post Robbery Procedures*
The rate of apprehension of robbery suspects is greatly increased if employees follow post robbery procedures. Proper procedures can provide additional safety for your employees and bystanders.
- *Develops Effective Strategies for Observations*
Due to the stress that victims experience, observations are often inaccurate or incomplete. Using planned strategies, employees can greatly increase the scope and reliability of their 'offender' descriptions.
- *Effective Response to Bomb Threat Situations*
Not all threats involve straightforward robbery situations. Employees may encounter bomb or other threats motivated by greed or other personal situations. This course also prepares employees for such an event.

CRIME SCENE DO NOT CROSS
